Employee Identification Card

Policy Statement

This policy pertains to the Southeastern Employee Identification Card. All Faculty and Staff at Southeastern Louisiana University are required to have a Southeastern Employee Identification Card.

Purpose of Policy

The mission of the Campus Card Operations Office is to provide the Southeastern community with an efficient technological one-card solution for a variety of campus operations including academic, financial, access, and identification.

Applicability

This policy applies to all faculty and staff at Southeastern Louisiana University.

Policy Procedure

New employees must first complete all their paperwork in Human Resources before being issued ID authorization. The employee must bring the authorization issued by Human Resources to Campus Card Operations and an ID Card will then be processed.

In addition to identification purposes, the Southeastern ID may also be used for door access, access to certain university-related events, and Library privileges.

Upon separation of employment, employee ID cards should be returned to Human Resources.

Student employees, graduate assistants, and resident assistants are not issued employee ID cards. They are required to use their student ID cards.

All Southeastern employees and students must carry their Southeastern ID card at all times when on campus or attending university-related activities.

If the ID card is lost or stolen, employees must notify Campus Card Operations. A replacement fee may be accessed.
