Mission

Create and effectively meet the parking demands of the University community, while providing a wide range of quality services within the scope of available resources.

Scope

Transportation Services at Southeastern Louisiana University is committed to providing:

- Quality parking and related services
- Safe and well maintained parking facilities
- Promote policies that are customer focused, friendly, and economically sound, and services that support the mission of the University
- Ensure space availability for permit holders through citation issuance

We are committed to providing the university community with quality and related services. Transportation Services is responsible for enforcing all parking rules and regulations in all parking lots, parking structures and restricted areas such as docks and loading zones.

- All students and employees who operate a motor vehicle on the Southeastern campus must be familiar with and abide by the following regulations.
    - These regulations have been designed to ensure the safety of all members of the University community and the efficient utilization of all available parking areas.
    - Driving a motor vehicle on the campus is a privilege granted by the university, and if that privilege is abused, it can be revoked.
- These regulations have been approved by the university administration. The Office of Transportation Services is charged with enforcing these regulations.

General Regulations and Enforcement

Driver Responsibility

- All persons registering or operating motor vehicles on campus are responsible for knowing the rules and regulations governing parking and traffic.
- The responsibility of finding a legal parking space rests with the vehicle operator.
